Limited, 30 Maiden Lane.

The Audit Board of Circulation audits the
circulation books of The Edmonton Bulletin.

**IF IT WILL HELP ALBERTA THE
EDMONTON BULLETIN IS FOR IT!**

WEDNESDAY, SEPTEMBER 11

MUST PULL TOGETHER

The city board of health should have the full co-operation of parents it is asked for in the effort to check the spread of "infantile paralysis." Every parent is entitled to expect that the board will extend and tighten up restrictions as the situation may require.

Necessarily the public look to the board for a lead in this defensive campaign, and the greater the co-operation the more entitled are the board to insist that by the appeals it makes. Private conduct is likely to depend upon how severe the regulations are made and how energetically these are enforced.

THEY WANT WORK

The semi-centennial year is said to be deserved with all that now the inmates having gone to the harvest fields. It is suggested drafting unemployed married men from the cities to help take care of the crops, and 500 relief men in Calgary have applied for such work.

As on every occasion when there is a chance of work being offered, unemployed men are showing that they want work. Of course there are exceptions, but the overwhelming majority are only requesting relief because they have no money to get along on a self-supporting footing as soon as they can.

Human nature is pretty much the same on both sides of the line, and there are as many willing leasers on payrolls as willing jifers on relief.

THEY ARE ALL DOING IT

London papers are wondering where Canada expects to sell wheat at 87½ cents a bushel. Canadians generally do not expect anything of the kind.

Barring war or a famine somewhere there is still enough chance that the Government can get back the price it is guaranteeing the farmer for his wheat.

As on every occasion when there is a chance of work being offered, unemployed men are showing that they want work. Of course there are exceptions, but the overwhelming majority are only requesting relief because they have no money to get along on a self-supporting footing as soon as they can.

Human nature is pretty much the same on both sides of the line, and there are as many willing leasers on payrolls as willing jifers on relief.

nothing to do, there has hitherto been no hint that he even knew of its existence.

The Premier says now he advances this retirement proposal as sincerely as in 1930 he promised to endow old men with a pension made in their own attempt to implement the former promise, the necessary inference is that five years hence the old men would still be on the tread-mill though their sons might still be in the interminable camp.

At the other end supposed conversion of the Premier on these two subjects is only a half-conversion. The one proper thing to do with the public debt is to pay it in installments as the public debt is to be paid off in installments of gold. It is necessary to make that concession to the superstitions of our gold-standard friends. There isn't any other way to deal with the debt which does not ensure eventual bankruptcy. Refunding at lower interest rates than the rate now would only be paying out rope with which to hang ourselves in future instead of at present.

As for retiring the pension at 65½—what terms are they to be paid? Does Mr. Bennett propose to put them on the dole or on the present old age pension pitance of \$20 a month? Then the point is silent. But that is the all-important point of the pension. If the pension is to be paid, then it must be necessary, they should be reduced on an allowance sufficient for a decent living, say twice the present old age pension allowance. To simply turn them adrift in the style of the present old age pension would be to shift poverty from the young to the old, which neither deserve and neither need be made to endure.

FORTY YEARS AGO
From the Files of The Edmonton Bulletin

Five men who left here about three weeks ago work on the railway in the south arrived yesterday on foot. They had walked about 360 miles. They were promised \$1.50 a day at Edmonton but were only offered \$1.15 when they got to the job.

Hon. Mr. Chamberlain, colonial secretary, stated in the British House of Commons that he saw no ground for the claim that the government had given \$80,000 pounds in relief to Newfoundland when the banks of that colony failed. He thought the distress there was due to colonial mismanagement.

A representative of the late mass-killers in China were a remnant of the Chinese-Japanese war. Because of the unfavorable outcome, Chinese mobs took vengeance on foreigners wherever they were found.

Choked has appealed to Canada and there is a strong demand among the Pacific coast.

Father LaMoigne returned recently from Ottawa, where he had been on behalf of a plan to secure a large tract of land north of the Saskatchewan River.

As a result of the visit of Jack Bender and John Peter, delegates from Nebraska, it is expected that 50 or 100 families from that state will remove here and settle in the Beaver Hills.

THIRTY YEARS AGO

Syndicate.—The naval authorities have ordered that mines be placed in certain waterways in view of the possibility of war with Norway.

Rome.—Eighteen villages in southern Italy are reported ruined by earthquake.

Wrigley.—Turkish troops are reported to have crossed the Serbian frontier, burned four towns and attacked Serbian frontier guards.

Wimples.—Messrs. Fielding, Patterson and Bourne have agreed to hold settings of the tariff committee in the west.

Quigley.—By a majority vote, the two elders of the lower house of the Anglican general synod of Canada passed a motion that the resolution that the church should adopt the principles of the Russian church for opposing the Turks in the Caucasus.

McGill.—By a majority vote, the church of Christ in Canada has voted to accept the principles of the Russian church for opposing the Turks in the Caucasus.

If the London press cannot understand the economic situation, they should consult Mr. Walter Elliott, Great Britain's minister of agriculture, who is doing the same thing for the farmers of the old lands, and is an active spirit in promoting the kind of international insanity that makes such "boot strap" lifting necessary in Canada as elsewhere.

TWENTY DYE YEARS AGO

London.—Grand Duke Nicholas of Russia has been acclaimed one of the greatest strategists of war for his masterly retreat in the face of the Austro-German onslaught, has been called "the last of the great military leaders" and the "last of the great generals."

Vietnam has been instructed to advise the Emperor that Dr. Constantin Dumbara no longer is acceptable as an envoy to the United States, and to ask for his withdrawal.

This is the attitude of the Vietnamese government to the American Ambassador.

It is the desire of the Emperor that the church of Christ in Canada should accept the principles of the Russian church for opposing the Turks in the Caucasus.

McGill.—He is now putting on a political Amenc.

The script shows all the earmarks of having been written by Mr. Bennett himself. A stooge of the Canadian government, he is well known to the minds of the listeners for them. A similar, though more dignified system of stooge questioning and empiric answering was successfully tried by Premier Aberhart in making known his offer to give every Alberta voter \$25 for a person in life in the event of his party succeeding.

Which the amount will be is not yet determined, but either sum is sufficient to ensure a registration quite regardless of party lines and colour. The Amenc. depends on the fact that it will be curious if the enclaves in the army of applicants do not include the entire population of the province.

Unlike the Amenc. enclaves, there will be no trouble rounding up delinquents. Among the registrars misses in his rounds can be depended on to make known the omission and see that his issue is written there.

Poems That Live

A PRAYER AFTER ILLNESS

Tune me for life again, O quiet Musician.
String to adjust my loosened thoughts until
Made neat, they shall be yeid to Thy Fingers
Gladly as trees to winds that touch their hill.

Blyme me with life once more, O silent Post.
Out of my weary, fluttering heartbeats make
Cool rhythm, hushed, yet certain as the circling
Water against the edges of this lake.

Fit Me for life again, O patient Artist.

Paint on my tired soul, glad, wind things.
Splash now upon its dulness beauty's pinpoints,
Lively as pansies and a bluebird's wings.

—Violet Alleyn Storey.

The Passing Show

By J. S. COOPER

Not originating in a metropolitan journal in the land of the free, this column can emulate the rôle of the "Passing Show" in the Windy City, making predictions about coming "blessed events" that can only concern itself with the rise and fall of governments, the price of wheat and the prospect of so manipulating a financial market that the people will be able to cease from borrowing, pay each voter \$25 or \$75 a month and discharge its public debt.

They do the "Passing Show" with more delicate touch in this country. The Nelson Daily News has been printing short hints about the politics of Alberta which concluded with the following interesting domestic prophecy about the Red family:

J. S. COOPER
of Premier R. G. Reid. (now ex-Premier) of Alberta which concluded with the following interesting domestic prophecy about the Red family:

"There are four children, George, Flora, James and Richard. (More tomorrow.)"

Westbrook Peleg, well-known American cartoonist, has written in a most serious manner a pointed protest against the affectation of public men in his country to affect yokels in their speech. He says:

"The heaviest handicap that an intelligent man can impose upon himself in public life in this country is a decent respect for the grammar, and dignity in manner and dress."

"On the other hand, he should take care not to let his speech be double negatives, 'she hasn't seen it and we wasn't,' act the part of a lovable oaf and strictly refrain from having his shoes shined or his pants pressed, and he may aspire to high position not only in the government but in the arts as well."

"This is so in spite of the vaunted national passion for education, and the tremendous expenditure of money to do the teaching of your young an appreciation of good language should be born in the mind of every man who wants to be a good citizen of his country. And it is a great mistake to let the man who wants to be a knight, an honourable knight, be a fool at best, an ignoramus at worst."

"The most significant fact about vital power is this: although he has had it all of his life, THERE IS ALWAYS MORE WHERE THAT CAME FROM. You have far more vitality than you can conceive. How much you will have depends to some extent upon your physical condition, but you can make up for any important point to remember is to keep your body in that condition in which it becomes a good transmitter of energy."

With the vital power of energy is associated the vital energy factor—as a receiving set for universal energy. The power is transmitted through your body and you choose the uses you will make of it. You choose how it is to be directed.

Amps Wives Hostesses To Visitors

Men who suffered in the Great War, now residents of many parts of the dominion, will gather in Edmonton on Sunday for their annual national convention. Among them will be their wives, in many instances, and while the business of convention is the most general, a special program will occupy the women. Mrs. Mary E. W. T. Rice is in charge of arrangements, and assisting her are Mrs. W. E. Dugall and Mrs. J. A. Hart.

On Sunday morning at eleven o'clock the women will join members of the Amps Wives Hostess Club, Dugall, and in the afternoon at three will also join them in a reception at the home of Mrs. Hart. Monday afternoon a drive around the city is arranged for feminine visitors, and in the late afternoon Walter Wilson, manager, will entertain in a tea party the party of the Amps.

On Tuesday afternoon there is to be a brief service at the Amps' Bay Pool, followed by a social and several prominent women of the city will join the party for this affair.

On Tuesday evening Messrs. Long will be host to a dinner party at the Hotel Macdonald. Wednesday morning at 10:30 a bowling party in Edmonton begins Sunday. A dinner and an international dance will be held half past one the visitors are invited to enjoy luncheon at the Grotto Inn. In the evening there will be an evening reception for both men and women to be held in the Macdonald hotel, at eight o'clock.

Bowling

The Jackson cup was retained by the Highlands Ladies Lawn Bowling club on a game against the Royal Canadian club on Monday afternoon. Mrs. Sonnenburg, captain of the Royals, took from the Royal club, Mrs. Macdonald and Miss J. Anderson, de-fending.

the social round . . .

SEPT. 11.—"It is just like travelling around with a pet monkey," said vivacious Miss Denham-Cookes of London, England, in talk about her English built-up, a Vauxhall 6-cylinder saloon (sedan). "With its top down it is a joy to drive. But when we travel in this country we attract lots of attention. 'Why, last year in Canada we were told to draw up, and I wondered what do we come here for?'"

Miss Denham-Cookes is a very attractive person, "full of the gods," a delightfully gay and vivacious girl with funds and adventures in the extraordinary things of life. With Miss E. Macdonald, she is touring Canada for the second time by motor, on this, her fourth trip to the continent. Last year they motored to Winnipeg via Toronto, and finally reached Edmonton, where they are staying at Jasper highway to Jasper Park.

They then set out for Banff and Lake Louise, where they never again, determined to see themselves, made a glorious excursion of this largest Canadian national park.

"It is wonderful, as was 20 Swiss travellers rolled into one, in their description of Jasper. 'What a life we live! We have never been so well fed and so well entertained. Mountain is their vastness is thrilling.'

"More's the pity," said a local Cawell is so lovely—and what a fitting memorial it is, she said, and was pleased to learn that the Cawells had built a new home in the French Quarter, Le Roi, wife of the famous painter, and Miss Yvette Vautier, of Montreal, were sending him a telegram of congratulations.

Prince Georges Glinka, nephew of the former Queen of Greece, has arrived from New York in the French Quarter, and his mother, Mrs. Antonia Le Roi, wife of the famous painter, and Miss Yvette Vautier, of Montreal, were sending him a telegram of congratulations.

Members of the Alpine Day committee of the Kiwanis club will meet in Heintzman's Thursday evening at 8:30 p.m. for the Apple Day, October 8, and later enjoy supper at the Pioneer Inn.

Mr. and Mrs. W. Brundrett have returned to Calgary after attending the Craig-Eby wedding.

Convener Of Entertainment For Visitors

Junior C.W.L. Plans Bridge For Charity

One of the major interests of the Junior Catholic Women's League is their social service work and community work. In addition to their activities they will hold their annual telephone bridge to aid this work on Wednesday, October 2. It was planned at the time of the recent Royal Northwest Mounted Police convention that the first amateur organization in the world to obtain the active participation of the Catholic Church.

Elizabeth Stirling Hayes

of the Empire theatre produced at the Empire theatre on October 28, "An Wilderness," will be the first amateur organization in the world to obtain the active participation of the Catholic Church.

The junior C.W.L. will be present at the convention of the Edmonton Diocesan Council of Women on November 10, 11 and 12, appointed to arrange for the entertainment.

Mrs. Dorothy Eash and her committee will be in charge of the first social event of the season to be held at the Tivoli on Friday, October 11.

CENTRAL UNION RE-ELECTS MRS. JAS. MARTIN

The annual meeting for re-election and election of officers of Central W.C.T.U. was held in the Ladies' Parlor of McDougall United church Monday afternoon. Mrs. James Martin, who has so well guided the affairs of the organization since she was elected in 1928, was re-elected.

Miss Dorothy Eash and her committee will be in charge of the first social event of the season to be held at the Tivoli on Friday, October 11.

MISS GERTRUDE STURLING HAYES IS BRIDE OF HERBERT CRAIG

Beautiful Miss Gertrude Stirling Hayes, the bride of Herbert Craig, was born in the United States and came to Canada with her parents in 1922. She is a member of the Victoria Garden Club, and a former student of the Edmonton Exhibition association. Last year she was elected first woman to be chosen to be elected president of a committee of the Victoria Garden Club.

Miss Clarke is the daughter of Mr. and Mrs. W. T. Rice, Amps Wives group, and a former member of the Amps Wives.

Mr. and Mrs. Herbert Craig, who were married at the church of the Immaculate Conception, Victoria, on August 29, are now living in Victoria.

The bride, given away by her brother, Mr. Robert Eby, wore an elegant white dress with a lace-trimmed velvet with a train of court length. Her hat was a becoming straw hat with a lace-trimmed veil and she carried on armfuls of lilies.

The bridegroom, Mr. Herbert Craig, was dressed in a dark suit with a white shirt and a dark tie.

The bride, Miss Peggy Atkinson, a cousin of the bride, was dressed in coral and white with a lace-trimmed veil.

The two little flower girls, Anna and Helen, daughters of Mr. and Clemen Craig, a cousin, were dressed alike in cream chiffon gowns with lace-trimmed veils of rose petals.

The best man was Mr. Clifford G. Hart, son of the deceased brother of the bridegroom. Ushers were Mr. Cyril Hart, Mr. Harold Clark, President of the Alberta branch of the Order of Baruchas. The music was played by Mr. W. G. Stillman, organist of the church.

At the reception following the ceremony, at the Corona hotel, Miss Stirling Hayes was the belle of the ball.

Two little flower girls, Anna and Helen, daughters of Mr. and Clemen Craig, a cousin, were dressed alike in cream chiffon gowns with lace-trimmed veils of rose petals.

The best man was Mr. Clifford G. Hart, son of the deceased brother of the bridegroom. Ushers were Mr. Cyril Hart, Mr. Harold Clark, President of the Alberta branch of the Order of Baruchas. The music was played by Mr. W. G. Stillman, organist of the church.

**THE SPawning GROUND
OF SALMON IN THE YUKON
RIVER, LIES 2,000 MILES
BY WATER FROM THE SEA.**

SALMON do not return to their birthplace to spawn because of any sentimental reasons, but because there is more oxygen in the stream at its source, and the young need this. It is only logical that a salmon would return to the same stream, since it does not ordinarily stay far from the mouth of the fresh water from which it emerged.

September — A Month of Big Events at EATON'S!

"It Pays to Shop at EATON'S!" Store Opens at 8:30 a.m., Closes at 5:30 p.m. Daily, Except Wednesday, 8:30 a.m. to 1:00 p.m. To Call EATON'S, Dial 9-1-2-0.

New Autumn Frocks Make the Headlines in the Sale Line-up!

Dashing, Youthful Numbers for the Young Woman on a Budget... Flattering Types for the Matron

Frocks that aren't to be judged by their Thursday pricing... they're winners for style and distinction, and would ordinarily ask much more! Crepes of a rough texture (rayon)... in deep, becoming Autumn shades. Details of clever flattery: crisp plaid taffeta bows, collars of gleaming satin, color contrasts. Early shoppers will be choosing them in twos and threes... see the windows tonight, and plan to make your selection early, Thursday. A complete size range, 34 to 44, with a choice of styles and shades in every size. SPECIAL

\$2.95

Silk-to-Top Heavy Service Stockings

Real Silks in the Rich Ten-Strand Service Weight

Madame who prefers this "de luxe" quality in silk stockings will want to order several pairs of these! Every pair is of first quality. Every pair is in the subtle tones "right" for this season. Full fashioned... real silk to the top—most thread. Sizes 8 1/2 to 10 1/2. Ordinarily \$1.25. SPECIAL

Hosiery, Section, Second Floor, Phone 9-1-2-4-2

These Smart Silk Scarves Are Washable!

New Autumn Designs in Flowing Lyolene Style... Exclusive to EATON'S

Not often that an exclusive design, in new-season styles, can ask a popular pricing. Yet here is something decidedly novel... an Autumn-hued bias scarf, in a real silk that's easily washable! A beautiful, flowing Lyolene... in just the shades you will want to wear with your new ensembles. Hemmed edges. SPECIAL

59c

Neckwear, Second Floor, Phone 9-1-2-4-2

Linen Hankies

Gay Prints Arrive from Ireland

No ordinary five-cent hankies! They're fine in quality, and smart... smooth, softly textured linens, with prints in a galaxy of bright colors. Hemmed borders. SPECIAL

Hankie, Second Floor, Phone 9-1-2-4-2

Such Smart Robes!

To Take as Low a Pricing as this

Special, \$3.95

All-wool flannel robes... which in itself is amazing, at Thursday's ticketing. Flannels of a soft, fine texture, and in soft, warm colorings... rose, blues, tan, green, mauve. And the styles are so very attractive—not only the classic type sketched, but a high-collared style, and one with trim rows of braid frogs! Small, medium and large sizes. SPECIAL, \$3.95.

New Frocks for the Mornings!

Pretty Enough to Take You to Town!

Bright Fall days make frocks that have done Summer duty look slightly washed-out and wilted. Treat yourself to new cheer and charm by choosing several of these numbers, Thursday! Plaids, checks and floral patterning in gay colorings... new styles, with becoming touches of organdy or picotee. Sizes 36 to 44. SPECIAL

\$1.00

Leather Coats

For the Sportsman and the Man on the Job

Swanky enough in cut to please the man who goes in for hunting or flying... full jacket length, with all-round belt and deep pockets. Durable enough to wear to work, when a man's on an outdoor job... heavy horsehide leather, in black, lined with blanket cloth. Sizes 36 to 46. SPECIAL

\$10.95

—Men's Sportswear, Main Floor, Phone 9-1-2-3-7

Men! Flannelette Pyjamas

Buy Several Suits, at Thursday's Special Price!

Hard to beat the comfort of a flannelette suit of pyjamas when nights grow cooler! These are such well made suits, too... lots of room in the cut of the kite front jackets and the trousers, and lots of strength in the sturdy seams. New striped effects: blue, pink or mauve tones against light grounds. Sizes 36 to 44. SPECIAL
